

Affiliated Researcher

georgiak[at]cperi.certh.gr

Tel. +30 2310 498419

Studies:

- Diploma in Physics, MSc

Areas of expertise:

- Catalyst design
- Tailor Nanoparticle Synthesis
- Porous Structures Synthesis

Ms. Georgia Kastrinaki, is a Physicist (Dipl. Physics- Aristotle University of Thessaloniki) with a

Master's in Microsystems and Nanostructures (National Technical University of Athens). She joined the Aerosol and Particle Technology Laboratory in 2007 as a Phd student. She is part of the Nanoparticles and Catalysts Group and is involved with particle synthesis and characterization for environmental and energy applications.
